“Try Pistol Shoot”

The Nowra Rifle Club held a ‘Try Pistol’ shoot on Sunday 31st March, and it was a complete success for the club and the attendees.

A total of eight shooters participated in the event and they all walked away with smiles of satisfaction on their faces.

We had three ladies, and five guys participate, all completing a basic Pistol Safe Handling Instruction course prior to shooting various handguns including 22 caliber semi-automatic, 22 caliber revolver, .357 magnum revolver and finally 9mm semi-automatic handgun. Two of our lady shooters had never handled or fired a firearm in their life and they commented how safe and enjoyable target shooting could be.

Out of our eight participants we have had one of our lady shooters and two of the guys start the sign-up process to become members.

Many thanks to our all-important range officers Troy & Wally who assisted our shooters and maintained the all-important safety for all.

NRC Pistol Captain/Secretary
